
Back to School 28/07/2021

I would like remind our community of the following

SA Health has advised that due to the biological nature of the virus combined with human behaviour, there is a real risk of further COVID-19 transmission in the South Australian community.

A key protection that allows us to return to our normal daily activities while these risks remain is the use of face masks.

Mask are currently required in a range of settings including all indoor public areas.

As the Chief Public Health Officer said, just because the hard lockdown has been lifted does not mean that the risks associated with COVID-19 have passed.

At East Para Primary School, we will

- minimise the number of people coming and going from our site.
- support all our adult visitors to understand the importance of wearing a mask.

We ask you to support us by:

- wherever possible, please drop and collect your child at the gate.
- If you need to enter the yard please maintain the appropriate physical distance from other adults.

It's important we continue to follow SA Health advice and your continued cooperation is greatly appreciated!

Regards

Ros Frost
